1. The following is an examiner's statement of reasons for allowance: All the claims are allowable over the prior art of record because prior art fail to teach or fairly suggest i) an apparatus for adding auxiliary data to an output data stream, comprising a statistical multiplexer, a first encoder for compressing a first data stream according to a first actual data rate that is less than or equal to first granted data rate granted in response to a requested data rate from the encoder, the difference between the first data rate and the first granted data rate defining an encoder overhead rate, the first encoder having an output including a compressed version of the first data stream provided at the actual data rate and encoder null data at the overhead rate; and an auxiliary multiplexer for sensing encoder null data and for substituting at least a portion of the auxiliary data for the encoder null data, and ii) a method of adding auxiliary data to a data stream as recited in claims, including the step of : prior to the substitution of the at least a portion of the auxiliary data fro the null data in the statistically multiplexed data stream, controlling an amount of the null data in the statistically multiplexed data stream to provide sufficient null data to permit the substitution of at least some of the auxiliary data in the statistically multiplexed data stream.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
